

Index

1. D1 Diode 1N4007
2. C1 Capacitor 0,1uF 250V (104)
3. NO Normally open relay contacts
4. N/C Normally closed relay contacts
5. COM Common relay contact

Door strike or magnetic lock connections
 For TMSTA, Tm751, MFA, MF450 & MF440 systems
 D1 and C1 are connected at the Door Strike or
 Magnetic Lock to cancel out back EMF which
 can cause the system to lock up.
